

HELP GUINNESS RECORD HOLDER DAVE FARROW TRIPLE THE MEMORY OF EVERYONE IN NORTH AMERICA

From the special ed room to the pages of the Guinness Book of World Records, Dave's journey has been an inspiring one. Diagnosed with ADHD and dyslexia as a teen, Dave was all but written off. He was told he had a bad memory and limited options in life. He chose not to listen to the so-called experts and blaze his own path. Today Dave Farrow is the World's Foremost Memory Expert and Speed Reader Extraordinaire.

Guinness World Record Holder, Dave Farrow, made history by memorizing and correctly recalling the exact order of 59 packs of shuffled playing cards. Over 100,000,000 people logged on to view Dave living in a downtown Manhattan store-front window as part of Sony's literacy campaign. For every page Dave read, eBook library was given to a school in America. He read over 44,000 pages. Dave has now set his sights on tripling the memory of everyone in North America.

If I can do it, so can you. —Dave Farrow
